Dr. Kyriakouli is Assistant Professor in the Hellenic Army Academy. Mathematical Doctoral from the Department of Mathematics of the University of Athens with title: "Namioka spaces, Baire-1 functions, theorems of the Ramsey type".

Mathematical works and papers:

1. In the algebra (with Professor N. Kehayopulu): Semigroups theory and lattices theory.
2. In the Mathematical Analysis: A classification of the pointwise convergence real-valued functions and combination analysis of the Ramsey type.
3. In the measure theory (with Professor N. Papanastassiou): A classification of the measurable functions, an Egorov type theorem and combination analysis of the Ramsey type.
